ACKNOWLEDGEMENTS

I am grateful to my thesis advisor, Assoc. Prof. Dr. Narit Sitasuwan, and my thesis co-advisers, Assoc. Prof. Dr. Araya Jatisatienr, Asst. Prof. Dr. Kanokporn Seanphet, and Asst. Prof. Dr. Siriwadee Chomdej for helpful suggestions throughout this study. I would like to thank Assoc. Prof. Dr. Daniel J. Mennill and the University of Windsor for hosting me during a one-year exchange visit in 2010-2011, funded by the Thailand Office of Higher Education Commission. I would like to thank the examining committee, Dr. Kamonchai Kotcha, and Dr. Sawat Sanitjan for providing helpful suggestions and comments.

I thank the Office of the Higher Education Commission, Thailand for supporting this research through a grant under the Strategic Scholarships for Frontier Research Network for the Joint Ph.D. Program Thai Doctoral degree, the Department of Biology, Faculty of Science, Chiang Mai University for providing research equipment, and the Pibulsongkram Rajabhat University for providing my Ph.D. grant. I thank the Doi Chiang Dao Wildlife Sanctuary, Department of National Park, Wildlife and Plant Conservation for permission to conduct sound recording, the Doi Chiang Dao Wildlife Research Station for providing accommodation, the head of CDWRS, Mr. Prateep Rojanadilok, for providing field research equipment, and all the staffs of CDWRS who assisted with sound recording.

I especially thankful to Mr. Woraphot Bunkhwamdi for providing sound recordings, Mr. Chatmongkon Suwannapoom for molecular assistance, Ms. Thassanee Panyakam for providing the original artwork in this dissertation, and Ms. Nootjaree Singkaraj for help with mist netting techniques. Thanks are given to Dr. David Wilson, Mr. Dugan Maynard, Mr. Luis Sandoval, Mr. Matthew Battiston, Mr. Roberto Sosa, Mr. Keegan Kennedy, Mr. Bjarke Ferchland, Ms. Julianne Koloff, and Ms. Sarah Baldo, and all of whom helped with parts of my research.

Finally, I would like to especially thank to my family for supporting throughout my education.

Somboon Kamtaeja
