ACKNOWLEDGEMENT

I would like to extend my deepest gratitude to my advisor, Dr. Ronachai Pratanaphon for his support, guidance, and patience during my study. I would especially like to thank Assistant Professor Dr. Noppol Leksawasdi for his supervision and giving me the opportunity to visit and use the research equipments at located at Division of Food Engineering, Faculty of Agro-Industry, Chiang Mai University. I also greatly appreciate the helps from staffs and students in Division of Food Engineering and Division of Food Science and Technology in HPLC analyze.

I would like to give a special thank to my examining committee; Assistant Professor Dr. Noppol Leksawasdi and Dr. Pairote Wongputtisrin for their suggestions and comments to improve my thesis manuscript.

I express my sincere gratitude to Dr. Kanruethai Wongsawan and Mr. Anuwat Wiratsudakul for their kind helps on the correction of my scientific thesis writing. I would like to thank Mr. Woottichai Nachaiweing for his support with the protocol for component analysis. I would like to acknowledge Mr. Jukrapun Kanlaya for giving the valuable advises during the course of my study. Help is always come forth when I asked from him. A great deal of appreciation goes out to every instructor at Division of Biotechnology for their comments and concerns. I would like to thank all dear friends in the Division of Biotechnology for providing continuous encouragement to me all the time.

I would like to acknowledge the Faculty of Agro-Industry and The Graduate School, Chiang Mai University for financial support.

Finally, I would like to sincerely thank my family for their understandings, supports, and patience throughout hard work during my study.

Chanawut Kaewcompa
