## ACKNOWLEDGEMENTS

I would like to express my sincere gratitude for all helps which gave me the possibility to complete this thesis. First of all, I am deeply grateful and appreciative to my thesis advisor, Dr. Papimon Chompu-inwai, Lecturer, Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for invaluable advices and giving me this opportunity to do this thesis in the first place. Without a lot of her support and encouragement, this research would not have been finished and achieved the goal. Especially, I wish to acknowledge all patients and their guardians for their willingness to participate in this study.

I am also indebted to Associate Professor Dr. Siriruk Nakornchai, Department of Pediatric Dentistry, Faculty of Dentistry, Mahidol University, chairperson, that I really appreciate her excellent advices in this thesis. I also would like to thank Assistant Professor Dr. Varisara Sirimaharaj, Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, and the other committee member for their helpful suggestions and supports.

I really appreciate Dr. Narumanas Korwanich, Department of Community Dentistry, Faculty of Dentistry, Chiang Mai University and Dr. Thanapat Sastraruji, researcher, Faculty of Dentistry, Chiang Mai University, for their excellent advices and helps on statistical analysis. Many thanks also go to all instructors both in the Department of Orthodontics and Pediatric Dentistry, and in the Faculty of Dentistry, Chiang Mai University, for their teaching and suggestions that were greatly helpful in completing my graduate study. Furthermore, my thankfulness also goes to all master

students and staffs in the Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for their great helps, supports, and encouragements. The author is grateful to a research fund from the graduate school and Faculty of Dentistry, Chiang Mai University.

Finally, I would like to express my profound gratitude and indebtedness to my beloved parents, Boonsongsawat's family, for their unconditioned love, encouragements, and supports throughout my entire life. I would like to also give my special thanks to beloved friends for their endless supports, compassions and encouragements. Without their love and support I am sure that I would not have been able to achieve so much. This thesis is especially dedicated to them.

Kamoltip Boonsongsawat
