ACKNOWLEDGEMENTS

I would like to express the honest appreciation to all people who have contributed to the delightful success of this thesis.

First of all and foremost, I have to convey my profound gratitude to Assoc. Prof. Dr. Suttichai Premrudeepreechacharn - my advisor, he always help, take care and provide the author intensive and invaluable guidance, discussion and encouragement. Special thanks to all members of this thesis committee: Dr. Suthep Chimklai, Asst. Asst. Prof. Dr. Somboon Nuchprayoon, and Dr. Peerapol Jirapong, for all of their priceless advices, constructive guidance, and regular assistances throughout this work.

My memorable appreciation would be extended to Dr. Suthep Leutsrimongkhon for offering the opportunity of my master degree study at Chiang Mai University; and Assoc. Prof. Yongyoot Jaiboon and his colleagues for serving as the counselors for my graduate course enrollments, lodging, and etc.

Also, I am pleased to thank to Mr. Kanchit Ngamsanroj, for the invaluable guidance and constant encouragement during conducting the thesis. Similarly, I would be obliged to Mrs. Daungchai Ekanan and his official staffs of Mae Moh Training Center of EGAT who always contributed kind cooperation in approach to this success.

In addition, my heartfelt gratefulness goes to Mr. Khammany Inthilath (General Managing Director of Electricite du Laos) and all of EDL's Executive Board of Directors who have been of great supports in the achievement of my graduate study, and thanks to Mr. Bounngong Bouttavong and staffs of the Electricite du Laos; they were helping me for data collected.

Furthermore, I am deeply indebted to Electricite du Laos, Electricity Generating Authority of Thailand, and Chiang Mai University for the grant of my graduate study, which offered the opportunity to reach my academic intention.

Finally, no word can ever be expressed my thankfulness to all friends and my family for their helps it might not be possible for me to accomplish my work. To them, I delightfully dedicate this success.

Vassana Phetlamphanh
