ACKNOWLEDGEMENT

My deeply indebt of gratitude is owned to my thesis advisor, Assoc. Prof. Jintana Sanwong, for her initial idea, guidance, constant instruction, kindness and encouragement which enable me to carry out my study successfully.

Thanks for their constructive comments and suggestions to Dr. Pradthana Jaipong and Asst. Prof. Dr. Chaiwat Namnak.

Thanks the Development and Promotion of Science and Technology Talents Project for its financial support.

Finally, thanks are also due to my family for their love, sacrifices and encouragement.
