ACKNOWLEDGEMENTS

I would like to express my deepest gratitude to my advisor, Asst. Prof. Dr. Chaiyavat Chaiyasut for his guidance, support, valuable suggestion and encouragement that have been given to me throughout this research. My knowledge and success at this point receive from him.

I would also like to express my special appreciation to members of the advisory committee, my co-advisors Assoc. Prof. Dr. Duangporn Kantachote at Department of Microbiology, Faculty of Science, Prince of Songkla University, who gave many valuable advices, suggestions and educated me to possess scientific mind of thinking and problem solving throughout my research work.

I am gratefully acknowledged my co-advisor Dr. Plearnpis Luxanil, Microbial Cell Factory Laboratory, Genetics Laboratory at National Center for Genetic Engineering and Biotechnology (BIOTEC), Thailand Science Park, for her good advices, suggestions and corrections throughout my period of study.

I acknowledged the Thailand Graduate Institute of Science and Technology (TGIST) for the partial financial support of my study.

My gratitude is also given to all staff members of Health Product Research and Development Center, Faculty of Pharmacy, Chiang Mai University, for continuous encouragement and support during the course of my work.

Finally, my sincere and deepest gratitude is extended to my beloved parents who are always on my mind, understanding and support throughout my life.

Sasithorn Sirilun
