## ACKNOWLEDGEMENT

I am deeply indebted and sincere gratitude to my major advisor, Asst. Prof. Dr. Sayam Kaewvichit, Department of Pharmaceutical Science, Faculty of Pharmacy for their concern, patient, guided, encouragement, valuable advice throughout period of study, and the patience in correcting this thesis and the manuscripts for publication.

I am very gratefully acknowledge to my co-advisor, Dr. Penkarn Kanjanarat for her kindness, supporting, supervision and crucial contribution to this thesis. She has provided me an unflinching encouragement and support various ways.

I wish to express my sincere and my warm thanks to my co-advisors, Assoc. Prof. Waraporn Pannavalee and Dr. Kannika Thiankhanithikun for their guidance and encouragement during my thesis.

I would like to thank to Faculty of Pharmacy, Chiang Mai University for supporting facilities. This thesis was financially supported by the Graduate School of Faculty of Pharmacy, Chiang Mai University and the International Health Policy Program Thailand (IHPP).

My special thanks extend to twenty specialists in field of drug system management from national, provincial, community levels and pharmacists who responsible to drug system management at Provincial Public Health Offices and community hospitals who aid in completing this work especially in selecting the potential quality indicators and collecting data at the community hospitals.

I would like to thank Director of Chiang Mai Provincial Public Health, the head of Department of health strategic planning, and my colleagues for their understanding and opportunity during my study.

Finally, I would like to thank my family for all their love, understanding and encouragement throughout my study. I also wish to express my warm thanks to graduate students at Faculty of Pharmacy, Chiang Mai University for their help and friendship during my study. Thank to everybody who has contributed to the successful realization of my thesis.

Sirikwan Borriharn
