ACKNOWLEDGEMENTS

I would like to express my deep and sincere gratitude to my major advisor, Prof. Dr. Aranya Manosroi for her supervision, advices, guidances and the patience of the correction of this thesis and the manuscripts for publication. She has provided me an unflinching encouragement and support in various ways. Her truly scientist intuition has made her as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist want to be. Also, I am gratefully acknowledged to my co-advisor, Prof. Dr. Jiradej Manosroi for his valuable advices, supervision and supports.

I wish to express my sincere thanks to my co-advisor, Dr. Tanachai Pankasemsuk, for his kind supports of the plant materials.

I greatly appreciate Asst. Prof. Dr. Kassara Pattamapun for her kind supports of the human skin fibroblasts.

My sincere thanks also go to Prof. Sumitra Tongprasert and Dr. Winai Chottianchai for being the examining committees of my thesis defense.

I also wish to express my warm thanks to my colleagues, all staffs and graduate students at Natural Products Research and Development Center (NPRDC), Faculty of Pharmacy, Science and Technology Research Institute (STRI), Chiang Mai University, Thailand for their technical help and friendship during my study.

I would like to thank the Thailand Research Fund (TRF) for providing me the TRF Master Research Grants (TRF-MAG) scholarship program in cooperation with Thai China Flavours and Fragrances Industry Co., Ltd.
