ACKNOWLEDGEMENTS

I would like to express deep gratitude and appreciation to my supervisor, Assoc. Prof. Dr. Pisanu Wongpornchai and Aj. Chanpen Silawongsawat for their valuable of time discussions and suggestions since beginning. Many ideas from them can be used in my work.

I am very grateful to the Geoscientists Without Borders (GWB) program 2010 and the Department of Mineral Resources (DMR) for supporting the ground-penetrating radar data from Wat Pan Sao archaeological sites and the Department of Geological Sciences and the Electricity Generating Authority of Thailand (EGAT) for the seismic and geophysical logs data used in this study.

I would like to express many gratefull to my friends in Applied Geophysics program for their help throughout this study.

Finally, I am most thankful to my parents for encouraging and supporting through this study.

Ukot Chanranyananda
