ACKNOWLEDGEMENT

This thesis was completed with the kind assistance of Lect. Dr. Anchalee Tananone, the thesis advisor, Assoc. Prof. Dr. Sirmsree Chaisorn, and Assoc. Prof. Dr. Buppa Anansuchatkul, the co-advisors. The researcher also thanks Emeritus Prof. Dr. Chamlong Disyavanish and Assoc. Prof. Dr. Darawan Thapinta, the examination committee members all of whom who kindly provided knowledge and advices as well as recommendations for revising this thesis to achieve its best quality and finalization. The researcher really appreciated their kind advices.

The researcher also thanks all the experts who kindly helped validate the quality of the research instrument and gave the fruitful comments. These included Phra Maha Dr. Boonchuay Sirintharo, and Phra Maha Sanga Therrasangwaro, the professor of the graduate study program at Maha Chulalongkorn Rajawittayalai, Chiang Mai Campus, Assoc. Prof. Dr. Kanya Kamsiriphiman, a professor of the graduate study program as the Faculty of Education, Chiang Mai University, Assoc. Prof. Dr. Arreewant Klanklin, and Assoc. Prof. Dr. Darawan Thapinta, the professors of the graduate study program, Faculty of Nursing, Chiang Mai University. The researcher also would like to thank all the students who were enrolled in the course 571151: Science and Art of Happiness Creation, who helped served as the subjects for implementing this thesis research to achieve its set goals. Last but not least, the research would like to thank all faculty members of the doctoral study program in curriculum and instruction, Faculty of Education, Chiang Mai University, who kindly provided variety of knowledge and experiences through which the researcher had learned and conducted the research to complete all the study requirements.

The researcher would like to hand all the values and benefits coming up from this thesis to those who have stood for all the goodness, particularly the teachers who kindly taught him since when he was young. Most of all, the researcher would like to submit all merits that might have come up from this research to his parents and the forefather of the Skulphan family line. Finally, the researcher would like to thank his wife and the two sons who have provided strong moral supports all along.

The researcher has hoped that this thesis would be useful for the students who enrolled and would enroll in this newly developed course and others faculty members and concerned persons who might be interested in applying the concepts and findings from this thesis to their instruction and educational provision.

Sombat Skulphan
