## ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to many people whose generosity and helpfulness have contributed to this project.

First of all, I would like to extend my appreciation to my thesis advisor, Dr. Papimon Chompu-inwai, Lecturer, Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for her invaluable advices, patience, motivation, enthusiasm and immense knowledge. Her guidance helped me throughout the making and writing of this thesis as well as other aspects of my Master's course. Without a lot of her support and encouragement, this research would not have been finished and achieved the goal.

Besides my advisor, I am also indebted to Associate Professor Dr. Siriruk Nakornchai, Department of Pediatric Dentistry, Faculty of Dentistry, Mahidol University, chairperson, that I really appreciate her excellent advices in this thesis. I am most grateful to Assistant Professor Dr. Varisara Sirimaharaj, Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for her helpful suggestions and supports. Moreover, I also would like to thank Assistant Professor Dr. Suwannee Tuongratanaphan and Dr. Sahatut Kaewkumnert for their encouragement and insightful comments.

My sincere thanks also go to Dr. Thanapat Sastraruji, researcher, Faculty of Dentistry, Chiang Mai University, for his excellent advices and helps on statistical analysis.

I wish to thank all instructors both in the Department of Orthodontics and Pediatric Dentistry, and in the Faculty of Dentistry, Chiang Mai University, for their instructions and suggestions that were greatly helpful in completing my graduate study.

Furthermore, I would like to offer my special thanks to Dr. Sivaporn Kulpavaropas for her encouragement, kindness and friendship. I am thankful for all master students and staffs in the Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for their great helps, supports, and encouragements. Especially, I wish to acknowledge all volunteers for their willingness to participate in this study. Without them this study would not have been possible.

The author is grateful to a research fund from the graduate school and Faculty of Dentistry, Chiang Mai University.

Last but not the least, I would like to express my profound gratitude and indebtedness to my beloved parents, Chansri's family, for their warmness love, encouragements, and supports spiritually throughout my entire life. I would like to also give my special thanks to beloved friends for their endless supports, compassions and encouragements. Without their love and support I am sure that I would not have been able to achieve so much. This thesis is especially dedicated to them.

For any errors or inadequacies that may remain in this work, of course, the responsibility is entirely my own.

Sariyaporn Chansri
