## ACKNOWLEDGEMENTS

I would never have been able to finish my thesis without the guidance of my advisor, my committee members, and support from my family.

First of all, my deepest appreciation goes to my thesis advisor, Dr. Papimon Chumpu-inwai, Lecturer, Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for giving me the great experience to do this thesis with invaluable advices. Without her encouragements, supports, guidance and helps the writing this thesis would not be possible. I also owe a very important debt to all volunteers who willing to participate in this study.

I would also like to thanks my committee members. Associate Professor Dr. Siriruk Nakornchai, Department of Pediatric Dentistry, Faculty of Dentistry, Mahidol University, chairperson, who gave me intellectual advice. Assistant Professor Dr. Varisara Sirimaharaj, Department of Orthodontics and Pediatric Dentistry, Faculty of Chiang Mai University, who gave me great suggestions and supports.

I also would like to thanks Dr. Sahatut Keawkumnert, Department of Oral Surgery and Maxillofacial, Faculty of Dentistry, Chiang Mai University, for his constructive comments and kindness. In addition, I am particularly grateful for the assistance of statistical analysis given by Dr. Thanapat Sastraruji, researcher, Faculty of Dentistry, Chiang Mai University. He is always willing to help and gives his best suggestions.

I deeply appreciate all instructors at the Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, for giving me the

opportunity to study here. Their educational professionalism has brought me to this place where I stand now. Furthermore, I also share the credit of my work with Dr. Sariyaporn Chansri, master student in Department of Orthodontics and Pediatric Dentistry, Faculty of Dentistry, Chiang Mai University, who works very hard and helps me in many ways to complete this dissertation. The author is grateful to a research fund from the Graduate school and Faculty of Dentistry, Chiang Mai University.

Finally, I could not find words to express my gratitude to my family for their endless love and supports throughout my entire life. They are always beside me whenever I need, especially in a hard time. I would have not been here without them.

This thesis is especially dedicated to all of them.

Sivaporn Kulpavaropas
