Acknowledgments

I would like to express my very great appreciation to my thesis supervisors, including Dr. Pisit Leeahtam, Dr. Manoj Potapohn (Faculty of Economics, Chiang Mai University), Dr. Veerasak Punyapornwithaya (Faculty of Veterinary Medicine, Chiang Mai University) and Mr. Chalernpol Samranpong (Center for Agricultural Resource System Research, Faculty of Agriculture, Chiang Mai University), and my honorable external advisory committee chairman, Dr. Bruce A. Wilcox (Integrative Research & Education Program, Faculty of Public Health, Mahidol University and Tropical Disease Research Laboratory, Khon Kaen University), for their valuable and constructive suggestions during the planning and development of this thesis paper and the assistance with transdisciplinary approach, disease risk modeling and the statistical methods used in this research.

I would like to express my gratitude to Dr. Fred Unger and Dr. Jeffrey Gilbert (International Livestock Research Institute (ILRI)) for their continued support to the project in particular on the study design and tools.

I would like to offer my special thanks to Assoc. Prof. Dr. Pichart Uparanukraw, Assoc. Prof. Dr. Nimit Morakote (Department of Parasitology, Faculty of Medicine, Chiang Mai University), Dr. Adulsak Wjit (Office of Disease Prevention and Control 10, Ministry of Public Health), Assist. Prof. Panuwat Yamsakul (Faculty of Veterinary Medicine, Chiang Mai University), Ms. Pornpen Tablerk (Department of Livestock Development, Nan Province), Dr. Wandee Kongkaew (Veterinary Research and Development Centre (South Region),

Department of Livestock Development) Dr. Montakarn Vongpakorn (Parasitology section, National Institute of Animal Health), Dr. Chirasak Khamboonruang (Department of Parasitology, Faculty of Medicine, Chiang Mai University), Dr. Mongkol Srijun, Dr. Wichak Tidchai (Department of Livestock Development, Chiang Mai Province), Dr. Jennifer Steele (Tufts University), Dr. Karin Hamilton (University of Minnesota) for the human health and veterinary technical advice and Prof. Dr. Songsak Sriboonjit (Faculty of Economics, Chiang Mai University) for the assistance with statistics used in this research.

I would like to thank Mr. Naret Puntasrivichai (Highland Research and Development Institute (Public organization)), Mr. Sathian Pattamawat (Pua Crown Prince Hospital, Nan Province), Ms. Jitrat Pongtong (Office of Disease Prevention and Control 10, Ministry of Public Health) for their cooperation with the collection of the data, and Mr. Kongchak Jaidee (Global Health Asia, Faculty of Public Health, Mahidol University) for GIS and mapping support.

Advice given by Assoc. Dr. Chongchit Sripun Robert, Dr. G. Lamar Robert, Dr. Warangkhan Chaisowwong (Faculty of Veterinary Medicine, Chiang Mai University), Dr. Jan Hinrichs (Animal Health Economist, Food and Agriculture Organization of the United Nations (FAO)), Dr. Prani Rodtian (Department of Livestock Development, Chiang Mai Province), Dr. Parichart Saenna (Tropical Disease Research Laboratory, Faculty of Medicine, Khon Kaen University), has been most helpful in developing the questionnaires for this research

I am particularly grateful to Assoc. Prof. Dr. Khwanchai Kruesukhon (Faculty of Veterinary Medicine, Chiang Mai University), Dr. Peter Kunstadter (Program for

HIV Prevention and Treatment, Thailand), Mrs. Isaree Khreusirikul, Ms. Weerawan Komutdang (Country director's assistant, Heifer International (Thailand)), Mr. Leesor Jalor (Headman Huai Chan Si Village), Mr. Peerawas Paloeng (Ban Luang sub district officer), Mr. Apinun Taotao (Mae Na Wang sub district officer) Ms. Supansa Lorpu and Mr. Pravin Tee-Ngoo (villagers), for their assistance to contact local people and organizations.

I gratefully acknowledge the administrative and logistic assistance of the Faculty of Economics, Faculty of Veterinary Medicine and Faculty of Medicine, Chiang Mai University. This piece of valuable research was affiliated to the EcoHealth-One Health Resource Centre, Chiang Mai University, the provided administrative support is appreciated. The research funds were supported by the EcoZD program of the International Livestock Research Institute (ILRI) made possible by Government of Canada's International Development Research Centre (IDRC) and the Graduate School, Chiang Mai University.

My special thanks are extended to the enumerators including Mr. Xin Dang Xuan, Mr. Faron Xu, Ms. Vu Thi Thu Tra, Ms. Varinda Somrit, Ms. Chanakarn Khampilai, Ms. Pornwimon Pata, Ms. Supassorn Chatsiriyingyong, Ms. Pimchanok Mueangchaimoon, Ms. Hathaichanok Wasasiri, Ms. Sarocha Sukrinprom, Ms. Bhurichaya Palasot, Ms. Phiangkwaun Padeang, Mr. Phuttipong Pookjohn and Mr. Nonprapa Bhuranawut, for their efforts in collecting the data in the fields.

Finally, and most of all, I wish to thank my parents for their encouragement and support throughout my study.

Chalisa Kallayanamitra
