ACKNOWLEDGEMENTS

I have had the extremely good luck of being instructed by Dr. Tippawan Prapamontol, Asst. Prof. Dr. Somporn Chantara and Assoc. Prof. Dr. Prasak Thavornyutikarn from Chiang Mai University. I am grateful of their generous supervision through out the time of research studies and correction of problem throughout this study.

I am also grateful of Dr. Surat Hongsibsong's comments on my research work and my thesis presentation.

I would like to express my gratitude to Ms. Thanyaporn Kerdnoi, Asst. Prof. Suchart Kiatwattanacharoen, Mrs. Waraphan Phornwisetsirikun, Ms. Warangkana Narksen, and all colleagues at the Research Institute for Health Sciences (RIHES) for their support during my study.

I gratefully acknowledge to Centre for Environmental Health, Toxicology and Management of Chemicals (EHT) and National Research University (NRU) Project of Thailand's Office of the Higher Education Commission, Chiang Mai University; for the financial support.

Finally, the fulfillment is closely connected with the everlasting and infinite love of my family, so that I could concentrate on study endlessly.
