

TABLE OF CONTENTS

	Page
Acknowledgements	iii
Abstract (English)	v
Abstract (Thai)	vii
List of Tables	xii
List of Figures	xiii
Chapter 1 Introduction	1
Background and significance of the research problem	1
Research objectives	13
Research questions	14
Scope of the study	14
Definition of terms	14
Chapter 2 Literature Review	17
Overview of hypertension	17
Adherence	40
Factors related to adherence to therapeutic regimens among persons with hypertension	64
Conceptual framework	112

TABLE OF CONTENTS (continued)

	Page
Chapter 3 Methodology	117
Research design	117
Population and sample	117
Research setting	120
Research instruments	120
Protection of human rights	126
Data collection procedures	127
Data analysis procedures	129
Chapter 4 Results and Discussion	134
Results	134
Demographics and clinical characteristics of the sample	134
Correlations among the study variables	142
The hypothesized model and modified model testing	147
Discussion of the Study	160
Chapter 5 Conclusions and Recommendations	187
Conclusion of the study	187
Implications of the study	189
Recommendations for further study	192

TABLE OF CONTENTS (continued)

	Page
References	193
Appendices	215
Appendix A Instrumentations	216
Appendix B Permission to Use Instrument	223
Appendix C List of Expert for Translation	224
Appendix D List of Experts for Back Translation	225
Appendix E Lists of Experts for Content Validity	226
Appendix F Ethical Approval	227
Appendix G Informed Consent Form	229
Appendix H Normality Testing	232
Appendix I Linearity Testing	233
Appendix J Multicollinearity Testing	234
Appendix K Descriptive of Study Variables	236
Curriculum Vitae	238

LIST OF TABLES

Table		Page
4-1	Demographics Characteristics of the Sample (n = 321)	136
4-2	Clinical Characteristics of the Sample (n = 321)	139
4-3	Mean, Standard Deviation, Number and Percentage of Sample as Described by Systolic and Diastolic Blood Pressure and Blood Pressure Control (n = 321)	141
4-4	Intercorrelations between ADTR and Predicting Variables (n = 321)	146
4-5	Comparison of Goodness-of-fit Indices in Hypothesized and Final Model	157
4-6	Structural Path Coefficients of the Final Model of Adherence to Therapeutic Regimens (n= 321)	159

LIST OF FIGURES

Figure		Page
2-1	Algorithm for Treatment of Hypertension	31
2-2	The proposed relationship between social support and related factors	80
2-3	The proposed relationship between provider-patient communication and related factors	87
2-4	The proposed relationship between knowledge of hypertension and related factors	92
2-5	The proposed relationship between perceived self-efficacy and related factors	108
2-6	The hypothesized causal model of adherence to therapeutic regimens among persons with hypertension	116
4-1	The hypothesized causal model of adherence to therapeutic regimens among persons with hypertension	150
4-2	The first modified causal model of adherence to therapeutic regimens among person with hypertension	152
4-3	The second modified causal model of adherence to therapeutic regimens among person with hypertension	154
4-4	The final causal model of adherence to therapeutic regimens among person with hypertension	156
