ACKNOWLEDGEMENTS

I would like to express my special thanks to the guidance and the help of several individuals who in some way contributed and extended their valuable assistance in the preparation and completion of my graduate studies for M.Sc. in Agricultural System Management in Chiang Mai University.

First and foremost, I would like to express my deep gratitude to Prof. Dr. Attachai Jintrawet, my adviser, for his enthusiastic encouragement and valuable guidance and Dr. Panomsak Promburom, my co-adviser, for his understanding and merit recommendations from the beginning to the end of my study.

I am indebted to other members of academic advisory committee and examining committee, Dr. Chitnucha Buddhagoon, Prof. Dr. Attachai Jintrawet, Dr. Panomsak Promburom for their contributions in stimulating suggestions and constructive recommendations.

I also wish to express my thanks to all respected academic faculty members of the Center for Agricultural Resource System Research for providing interesting and useful lectures. I also would like to express my thanks to Assoc. Prof. Dr. Benchaphun Ekasingh, former head of Center for Agricultural Resource System Research, Assit. Prof. Dr. Chanchai Sangchyoswat, chairperson of Agricultural System management program and head of Center for Agricultural Resource System Research for their kind help and support during my study time. I would also like to thank Khun Juthamat Onpraphai, the program officer for her special help and kindness.

I also would like to express many thanks to Dr. Prathanthip Kramol who gave me advises on my statistical models in my thesis.

Extremely great thanks to SEARCA-IDRC Scholar Awards for financial supports to my graduate study.

My thanks are also expressed to the leaders and my colleagues of the Hue University of Agriculture and Forestry (HUAF). It is great pleased to thank to Prof. Dr. Nguyen Minh Hieu, rector of HUAF, Assoc. Prof. Dr Truong Van Tuyen, dean of faculty of Rural Development and Extension of HUAF for their support, encouragement and letters of recommendation for me to study at Chiang Mai University.

Special thanks go to Mr. Nguyen Van Hung, Head of Hydro-meteorological Station of Thua Thien Hue, Mr. Phan Tan Son, Head of Agricultural Office of Nam Dong district, Mr. Nguyen Huu Anh, Head of Extension Office of Nam Dong district, Mr. Nguyen Huu Lang, Head of Statistical Office of Nam Dong district, who provided the assistance during my field work and valuable secondary data to enable me to fulfil my thesis.

My appreciation is also given to Mr. Terry Juhlin, Mrs. Samantha Burman, who helped me edit and correct English grammar my thesis.

I would like to thank all my classmates and my AGS friends for their substantial help and sharing their experiences. Many thanks go to overseas Vietnamese friends for their kindness, support, sharing joyful moments and help.

Finally, I am extremely grateful to my parents for instilling in me confidence and a drive for pursuing and achieving my professional objective. I wish to express my deep appreciation to my fiancé who always encouraged me during this study.

Nguyen Thi Chung
