Abstract in Thai	f
Abstract in English	h
List of Tables	l
List of Figures	n
List of Abbreviations	p
Chapter 1 Introduction	1
1.1 Background	1
1.2 Research Objectives	3
Chapter 2 Literature Review	4
2.1 Definition of Drought	4
2.2 Drought Classification	6
2.3 The Impact of Drought on Crop Production	7
2.4 Perception on Drought	9
2.5 Farmers' Adaptation in Agricultural and Maize Production	11
2.6 Factors Impact on Adaptation	14
2.7 Use of Multinomial Regression Model in Other Related Studies	15
Chapter 3 Research Methodology	17
3.1 Site Selection	17
3.2 Sampling Technique	17
3.3 Data Collection	18
3.4 Data Analysis	21

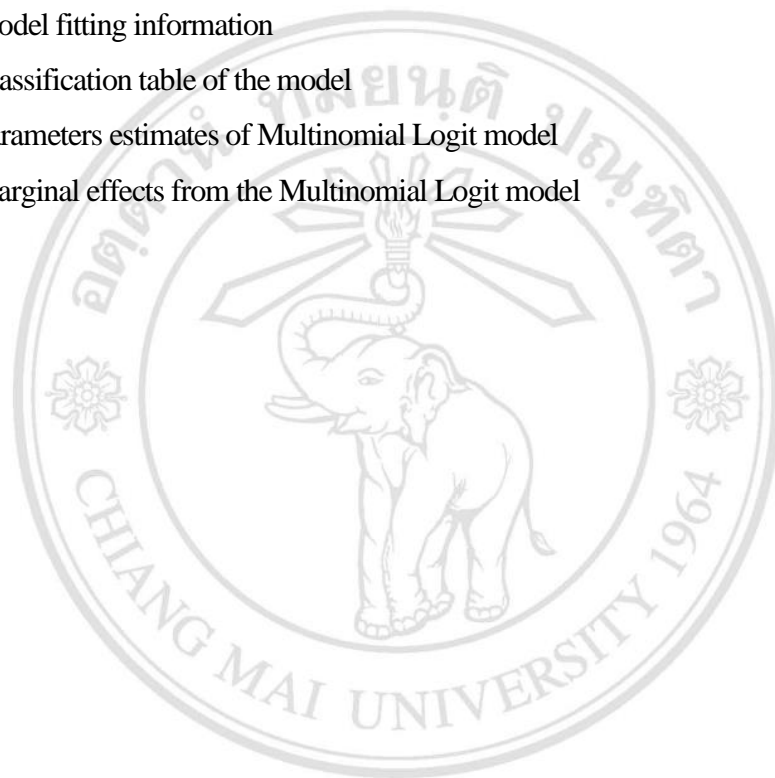

Chapter 4 Characteristics of the Study Area and Selected Communes	28
4.1 General Characteristics	28
4.2 The Agricultural Sector and Maize Production	37
4.3 Summary Characteristic of Household Survey	42
Chapter 5 Farmers' Perception and Adaptation to Drought in Maize Production	50
5.1 Farmers' Perception on Drought	50
5.2 Farmers' Adaptation to Drought in Maize Production	64
5.3 Factors Impact on Farmers' Adaptation to Drought in Maize Production	72
Chapter 6 Conclusions and Recommendations	82
6.1 Conclusions	82
6.2 Recommendation	86
References	89
Appendix	
Appendix A	98
Appendix B	103
Appendix C	112
Curriculum vitae	116

## LIST OF TABLES

	Page
Table 2.1 Selected general definitions of a drought	5
Table 2.2 Adaptation classified by Klein	12
Table 3.1 Summary of data collection tools and types of information for the research	20
Table 3.2 Independent variables	25
Table 4.1 Climate hazards in the study area	33
Table 4.2 Effects of remarkable climate risk events and its impacts on crops in the area	34
Table 4.3 Number of livestock in the district over the years	38
Table 4.4 Yield of crops in the district over the years	39
Table 4.5 Social characteristic of household in Dakrong	44
Table 4.6 Land-use of households in Dakrong	45
Table 4.7 Household income structure in 2012	46
Table 5.1 Farmers perception on characteristics of drought	51
Table 5.2 Chi-square test of farmers' perception on drought characteristics among farmers groups	52
Table 5.3 Farmers' perception on effects of drought	54
Table 5.4 Chi-square test of farmers' perception on drought effects among farmer groups	55
Table 5.5 Farmers' perception on causes of drought	57
Table 5.6 Chi-square test of farmers' perception on drought causes among farmer groups	58
Table 5.7 Farmers' perception on coping measures in maize production	60
Table 5.8 Farmer's memory about drought happenings	61

Table 5.9	Average perception score of farmers in the study area	63
Table 5.10	Farmer practice in maize production	65
Table 5.11	Maize varieties growing in Dakrong district	70
Table 5.12	KMO and Bartlett's Test	72
Table 5.13	Components extracted by factor analysis showing the total variance explained	73
Table 5.14	Frequencies of the response variable categories	74
Table 5.15	Model fitting information	75
Table 5.16	Classification table of the model	76
Table 5.17	Parameters estimates of Multinomial Logit model	77
Table 5.18	Marginal effects from the Multinomial Logit model	78

## LIST OF FIGURES

	Page
Figure 2.1 Element of drought perception	9
Figure 2.2 Adaptation as a process	13
Figure 3.1 Data collection flow	18
Figure 3.2 Variables and underlying factors	27
Figure 4.1 Study area map in Quang Tri province and Dakrong district	29
Figure 4.2 Poor rate in Dakrong district from 2010-2013	30
Figure 4.3 The monthly average temperature and number of sunshine hours in Dakrong District from 2000 to 2012	31
Figure 4.4 The distribution of average rainfall during the months of the year in Quang Tri Province from 2000 to 2012	32
Figure 4.5 The distribution of annual rainfall and average temperature in Quang Tri Province from 1989 to 2012	33
Figure 4.6 Land use distribution in Dakrong district	36
Figure 4.7 Production value of fields in agricultural sector in Dakrong district	37
Figure 4.8 Maize cultivated area in two seasons over the years in Dakrong	40
Figure 4.9 Maize yield in two seasons over the years in Dakrong	40
Figure 4.10 Summary of topography and cropping in the selected study area	42
Figure 4.11 Maize productivity of household	47
Figure 4.12 First objective in maize production of the farmers	47
Figure 4.13 Farmer's maize production technologies approach	48
Figure 5.1 Farmers' perception on drought happenings	61
Figure 5.2 Farmers' perception on drought in the study area	64
Figure 5.3 Farmer adaptation practice levels in the study area	65
Figure 5.4 Maize sowing calendar of farmers in spring season	66

Figure 5.5 Maize sowing calendar of farmers in summer season

67
