ACKNOWLEDGEMENTS

First of all, I would like to express my deep gratitude to my superadvisor, Assoc. Prof. Dr. Nuansri Rakariyatham for giving me an opportunity, trusting in my ability and doing me respect in myself.

I am grateful to my co-advisors, Asst. Prof. Dr. Hataichanoke Niamsup and Asst. Prof. Dr. Lalida Shank for their kind suggestion and helpful advice for my research. I deeply thank to Dr. Nont Thitilertdecha for his kindness, helpfulness and thoughtfulness. I sincerely thank to Asst. Prof. Dr. Weerah Wongkham for his kindness and fluorescent microscopy services at Department of Biology, Faculty of Science, Chiang Mai University.

Besides, I very grateful to the Center of Excellence for Innovation in Chemistry (PERCH-CIC), the Commission on Higher Education, Ministry of Education and Graduate School, Chiang Mai University, Chiang Mai, Thailand for financial support of this research.

Moreover, I am grateful to all staffs of the Department of Chemistry, Faculty of Science, Chiang Mai University for their help and service me on the facilities, especially, Mr. Supian, Mr. Pornchai Junta and Mr. Pisan Kitsawatpiboon (LC-MS instrument). I would like to express my appreciation to all my friends, for their help and encouragement.

Finally, I would like to express my gratitude to my parents for their true love, understanding, sacrifice and encouraging when I faced with difficult time in my lives.
