ACKNOWLEDGEMENT

First, I would like to thank my advisor, Prof. Dr. Kate Grudpan for providing me the opportunity to complete my master thesis at Chaing Mai University. I especially want to thank my advisor on the spot, Prof. Dr. Kate Grudpan, whose support and guidance made my thesis work possible. He has been actively interested in my work and has always been available to advise me. I am very grateful for his patience, motivation, enthusiasm, and great knowledge in analytical chemistry, taken together, make him a great mentor.

Second, I would like to express gratitude to the Center of Excellence for Innovation in Analytical Science and Technology (I-ANALY-S-T) for research financial support.

Finally, I would like to thank I-ANALY-S-T members for their tender love, continual care and encouragement, Ms.Kanokwan Kiwfo, Mr.Wasin Wongwilai, Mr.Kajornkai Thajee, Ms.Sutasinee Apichi, Ms.Suphasinee Sateanchok and Ms.Sasithon Boonmapa for them unending support and friendship. I would like to thank Mr. Kitti Phojuang and his family for support a car for on-site analysis apart from academic discussion. I am profoundly indebted to my parents, my brothers and Mr.Wasin Wongdit for an abundance of support and encouragement. With love and respect, I dedicate this thesis to my honorable parents, who have always loved me and given me a helping hand for everything in my life.
