ACKNOWLEDGEMENT

I would like to express my deepest gratitude to Dr. Kontad Ounnunkad, my supervisor, for his kind recommendation, supervision, encouragement, thoughtfulness guidance and great support throughout the course of this research. I also wish to express my sincere appreciation to Asst. Prof. Dr. Thitiphan Chimsook, Dr. Nawee Kungwan and Dr. Nuttee Suree, the examining committee for their valuable comments and suggestion. Furthermore, I would like to thank Miss Preeyaporn Reanpang (PhD. Student) for her kind advice and valuable guidance in the electrochemistry technique and interpreting the results.

I am grateful to the National Research University (NRU), Commission on Higher Education, Thailand (2013-2014), for the partial supports in my Master Degree Program for great opportunities and invaluable experiences. Furthermore, I thank the Graduate School and the Department of Chemistry, Chiang Mai University, for knowledge and facilities.

I would like to thank my seniors and my friends from the Chemistry Branch, the Department of Chemistry at Chiang Mai University, who has cheered me up, encouraged me, supported me and gave very thoughtful comments on my study and research.

Finally, I must extend special thanks to my family who have a great support to me and be a part of my success.
