Acknowledgements	c
Abstract in Thai	d
Abstract in English	f
List of Tables	l
List of Figures	n
Chapter 1 Introduction	1
1.1 Principle and Rationale of the Study	1
1.2 Purpose of the Study	9
1.3 Advantages of the Study	9
1.4 Scope of the Study	9
1.5 Research Designs	10
Chapter 2 Literature Review and Theoretical Background	11
2.1 Concepts and Theories	11
2.2.1 Production Theory	11
2.2.2 Theories of Economic Growth	15
2.2.3 Theories of Rice Production and Forecasting Model	19
2.2.4 Unit root test	22
2.2.5 Co-integration and Error Correction Model	24
2.2 Previous studies	25
2.2.1 Rice Production	26

2.2.2 Rice Production and Economic Growth	28
2.2.3 Forecasting Rice Production	30
Chapter 3 Methodology	40
3.1 Data Collection	40
3.2 Conceptual Framework	40
3.3 Research Methodologies	42
3.3.1 Porter's Diamond Model	42
3.3.2 Rice Production	43
3.3.3 Co-integration and VECM of Rice Production	45
3.3.4 Rice production forecasting model	47
3.3.5 Rice export contributions to GDP model	50
3.3.6 Co-integration and VECM of Rice Export on Economic Growth	53
Chapter 4 Empirical Results and Discussion	56
4.1 Situation of Rice Production in Cambodia	56
4.2 Porter's Diamond Model	67
4.2.1 Factor Conditions	67
4.2.2 Demand Factor (Domestic Consumption)	70
4.2.3 Firm Strategy, Structure and Rivalry	70
4.2.4 Related and Supporting Industries	74
4.2.5 Government	75
4.2.6 Chance	76
4.3 Rice Production in Cambodia	79
4.3.1 Results of the Unit Root Test	79
4.3.2 The Results of the Co-integration Test of Cambodian Rice Production as in a Long-run based on ARDL approach	82
4.3.3 The results of the analysis of Cambodian rice production as in a long-run based on ARDL approach to co-integration	84
4.3.4: The results of the long-run relationship in Cambodian	

rice production as in short-run (ECM) selected based on ARDL approach to co-integration	85
4.4 Rice Production on Cambodian Economic Growth	86
4.4.1 Results of the Unit Root Test	86
4.4.2 The Results of the Co-integration Test of Cambodian Rice export on Economic Growth as in a Long-run based on ARDL approach	89
4.4.3 The results of the analysis of Cambodian Rice export on Economic Growth as in a long-run based on ARDL approach	90
4.4.4: The results of the long-run relationship in Cambodian rice export as in short-run (ECM) selected based on ARDL approach to co-integration	91
4.5 Rice Production Forecasting Model	92
4.5.1 Model Identification	92
4.5.2 Model Estimation	94
4.5.3 Model Diagnostic Checking	95
4.5.4 Historical Forecasting	97
Chapter 5 Conclusions, Recommendations and Suggestions, Future Research	98
5.1 Conclusions	98
5.2 Recommendations and Suggestions	99
5.3 Future Research	101
References	102
Appendices	107
Appendix A: Results of the analysis of Cambodian rice production as in a long run and short-run based on ARDL approach to co- integration	108
Appendix B: Results of the analysis of rice export contributions	

to Cambodian economic growth as in a long-run and  
short-run based on ARDL approach to co-integration 112

Appendix C: Results of the analysis of rice production forecasting based on  
ARIMA model 116

## LIST OF TABLES

	Page
Table 1.1 Key indicators of rice production in Cambodia (2004-2013)	4
Table 1.2 Shares of real GDP by sector (in percent)	7
Table 2.1 Summary of rice production and forecasting model	33
Table 3.1 The expected sign of parameters of variables	45
Table 3.2 The expected sign of parameters of variables	52
Table 4.1 Provincial Production of wet season rice, Cambodia, 2013-2014	57
Table 4.2 Provincial Production of dry season rice, Cambodia, 2013-2014	59
Table 4.3 Rice Production, Cambodia, 2004-2013	61
Table 4.4 Fertilizer use in Cambodia in 2004 and 2007	68
Table 4.5 Irrigation use in Cambodia, 2004-2007	69
Table 4.6 Policy Measures for Production of Rice Production, Cambodia	71
Table 4.7 Rice sector policies in Thailand, 2011	72
Table 4.8 Rice sector policies in Vietnam, 2011	73
Table 4.9 Infrastructure access in three countries, 2005	74
Table 4.10 Rice production policy in Cambodia, Thailand, and Vietnam, 2011	75
Table 4.11 Rough rice average area, yield, and production, selected ASEAN countries, 2004 – 2013	77
Table 4.12 The Results of Unit Root Test of Augmented Dickey-Fuller (ADF) at Level for Rice Production	80
Table 4.13 The Results of Unit Root Test of Augmented Dickey-Fuller (ADF) at the 1 <sup>st</sup> for Rice Production	82

Table: 4.14 F-statistics for testing the existence of the long-run relationship among variable and critical value bounds of the F-statistics with intercept and no trend (k=5) from Pesaran and Shin (2001)	83
Table: 4.15 Estimated ARDL long run coefficients for rice production in Cambodia from Pesaran and Shin (2001)	84
Table 4.16 The results of the short-run relationship in Cambodian rice production based on error correction model selected by ARDL approach to co-integration	85
Table 4.17 The Results of Unit Root Test of Augmented Dickey-Fuller (ADF) at Level for Rice Production on Economic Growth	87
Table 4.18 The Results of Unit Root Test of Augmented Dickey-Fuller (ADF) at the 1 <sup>st</sup> for Rice export on Economic Growth	88
Table: 4.19 F-statistics for testing the existence of the long-run relationship among variable and critical value bounds of the t-ratios (p-value) with no intercept and no trend (k=3) from Pesaran and Shin (2001)	90
Table: 4.20 Estimated ARDL long run coefficients and short run for Cambodian rice export on economic growth from Pesaran and Shin	90
Table 4.21 The results of the short-run relationship in Cambodian rice export based on error correction model selected by ARDL approach to co-integration	91
Table 4.22 Comparison of different ARIMA models with model fit statistics for rice production	95
Table 4.23 Estimated Results of Rice Production from ARIMA (1, 1, 1)	95

## LIST OF FIGURES

	Page
Figure 1.1 Trends in area and production of rice, Cambodia, 1960 – 2013	2
Figure 1.2 Percent share of GDP by sector at constant prices (in percent), Cambodia	8
Figure 2.1 TP, AP and MP Curves and Three Stages of Production	13
Figure 3.1 Conceptual Framework of Cambodian Rice Production	41
Figure 3.2 Port's Diamond model	43
Figure 3.3 Box-Jenkins Methodology	48
Figure 4.1 Area of Wet Season Crop under Cultivation 2001-2002	65
Figure 4.2 Area of Dry Season Crop under Cultivation 2001-2002	66
Figure 4.3 Fertilizer Consumption in Three Countries (kilograms per hectare of arable land)	68
Figure 4.4 Irrigation in Three Asean Countries (share of irrigated area in total arable area in percent)	69
Figure 4.5 Rice Consumption Per Capita in Three Asean Countries (Kilograms per year)	70
Figure 4.6 Trends in yield of rough rice, selected ASEAN countries, 1961 – 2013	78
Figure 4.7 Per capita production of rough rice, seceded ASEAN countries, 1980 – 2013	78
Figure 4.8 The first difference of Autocorrelation and Partial Autocorrelation Correlogram of rice production	93
Figure 4.9 The first difference of Autocorrelation and Partial Autocorrelation Correlogram of rice production	94
Figure 4.10 Residual plots of ACF and PACF of rice production	96
Figure 4.11 Actual and Forecasting Values	97
