STATEMENTS OF ORIGINALITY

- 1) This thesis presents the theory development that concentrates on variability of the concept of co-management that has led to the operation in the National Park area as a pilot project. By considering principles, methods, and processes that have been operated in the area, including the use of the evidence-based data for solving conflict resolution of all stakeholders in order to fulfill theory and appropriate guidelines.
- 2) To increase the capacity of community leaders and network of communities in co-management of natural resources at the National Park efficiently and contributes to the sustainability of ecosystems, economy and the way of community life.

The seal of Chiang Mai University is a circular emblem. It features a central illustration of an elephant standing and facing left. Above the elephant is a crown-like symbol. The entire emblem is encircled by a border containing the university's name in Thai script at the top and 'CHIANG MAI UNIVERSITY 1964' in English at the bottom.
