I am using this opportunity to express my gratitude to everyone who supported me throughout this research project.

First and foremost I offer my sincerest gratitude to my advisor, Dr. Santi Tasena, for the continuous support of my thesis, for his patience, motivation, and immense knowledge. His guidance helped me throughout this research and writing of the thesis. Without him, this thesis would not have been completed.

Besides my advisor, I would like to thank the rest of my thesis committee: Asst. Prof. Dr. Songkiat Sumetkijakan and Prof. Dr. Sompong Dhompongsa for their helpful comments and suggestions.

I also thank the Science Achievement Scholarship of Thailand (SAST) for financial supports.

I would like to thank my senior and my friend at Department of Mathematics; Mr. Wanchai Tapanyo and Mr. Khwanchai Kunwai for their helps in typesetting  $\text{\LaTeX}$  and my close friends; Mr. Wissarut Ketaiam, Mr. Aroon Saelor and Mr. Piyanat Wonggrai for giving me consolations.

Last but not least I would like to thank my family for supporting me throughout my life.

For those who are not mentioned, you are in subconscious part of my mind and not forgotten.
