ACKNOWLEDGEMENT

Foremost, I would like to express my sincere gratitude to my supervisor, Asst. Prof. Dr. Sayan Panma, for the continuous support of my Ph.D study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study.

Besides my supervisor, I would like to thank the rest of my thesis committee: Assoc. Prof. Dr. Sorasak Leeratanavalee, Assoc. Prof. Thanin Sitthiwirattham, Asst. Prof. Dr. Thanasak Mouktonglang, and Dr. Decha Samana, for their encouragement, insightful comments, and questions.

Throughout my time at department of mathematics of Chiang Mai University was made enjoyable in large part due to the teachers and many friends that became a part of my life. My sincere thanks to everyone for the friendship and generosity.

I would like to thank the Thai Government Scholaships in the Area of Science and Technology (Ministry of Science and Technology), which provides funding supported to me throughout the duration of my studied at the doctoral level.

Finally, I would like to thank my family for all their love and encouragement. For my parents who raised me with a love and supported me in all my pursuits. Thank you.
