ABSTRACT IN ENGLISH	h
TABLE OF CONTENTS	k
LIST OF TABLES	n
LIST OF FIGURES	p
LIST OF ABBREVIATIONS	q
LIST OF SYMBOLS	r
CHAPTER 1 INTRRDUCTION	1
1. GENERAL INTRODUCTION	1
1.1 Statement and significance of problem	1
2. LITERATURE REVIEW	3
2.1. Mosquitoes	3
2.2. Mosquito control	9
2.3. Plant-derived repellents	10
2.4. <i>Ligusticum sinense</i> Oliv. cv. Chuanxiong the most effective plant sample	15
3. PURPOSES OF THE STUDY	17
4. USEFULNESS OF THE STUDY	17

CONTENTS (continued)

	Page
CHAPTER 2 MATERIALS AND METHODS	18
1. METERIALS	18
1.1 Plant materials	18
1.2 Human volunteers	18
1.3 Experimental animals	20
1.4 Chemicals	20
2. METHODS	21
2.1 Preparation of plant extracts	21
2.2 Mosquito rearing	22
2.3 Laboratory repellent bioassay	23
2.4 Field repellent bioassay	24
2.5 Testing the physical and biological stability of the most effective plant sample	26
2.6 Chemical analysis of the most effective plant extract	27
2.7 Statistical analysis	28
CHAPTER 3 RESULTS	29
1. Plant extracts	29
2. Repellent activity of plant extracts against <i>Ae. aegypti</i> mosquito	33
3. Repellent activity of <i>L. sinense</i> hexane extract against two target mosquitoes, <i>Ae. aegypti</i> and <i>An. minimus</i>	35
4. Field repellent study	36
4.1 Preliminary survey	36
4.2 Field repellent assessment	37
5. Physical and biological stability of <i>L. sinense</i> hexane extract	40
6. Chemical composition of <i>L. sinense</i> hexane extract	41

LIST OF TABLES

		Page
Table 2.1	List of the plants used for the repellent screening bioassay	19
Table 3.1	Physical characteristics and percentage yields (% Yield) of essential oils derived from steam distillation of 17 samples of fifteen plant species	30
Table 3.2	Physical characteristics and percentage yields of ethanolic extracts derived from 17 samples of fifteen plant species	31
Table 3.3	Physical characteristics and percentage yields of hexane extracts derived from 17 samples of fifteen plant species	32
Table 3.4	Repellency of 25% DEET and plant products, including essential oils, ethanolic extracts, and hexane extracts against female <i>Ae. aegypti</i> mosquitoes	34
Table 3.5	Repellent activity of <i>L. sinense</i> hexane extract (LHE) and DEET, with and without 5% vanillin, against <i>Ae. aegypti</i> and <i>An. minimus</i> mosquitoes	35

LIST OF TABLES (continued)

	Page	
Table 3.6	Mosquitoes collected on human volunteers during the preliminary surveys at Sunpesua subdistrict, Chiang Mai province, northern Thailand, March-April, 2013	37
Table 3.7	Number of mosquitoes collected on human volunteers during field repellent bioassays at Sunpesua subdistrict, Chiang Mai province, northern Thailand, April-May, 2013	38
Table 3.8	Results obtained from field repellent assessment of 25% LHEv and 25% DEETv, conducted at Sunpesua subdistrict, Chiang Mai province, northern Thailand, April-May, 2013	39
Table 3.9	Physical characteristics and repellency against <i>Ae. aegypti</i> of the fresh and stored samples kept at 4 °C, ambient temperature (AT), and 45 °C for 1, 2, and 3 months of <i>L. sinense</i> rhizome hexane extract	40
Table 3.10	Chemical compositions of <i>L. sinense</i> rhizome hexane extract as determined by GC/MS analysis	42

LIST OF FIGURES

		Page
Figure 1.1	The life-cycles of <i>Anopheles</i> and <i>Aedes</i> mosquitoes	4
Figure 1.2	<i>Ligusticum sinense</i> Oliv. cv. Chuanxiong	16
Figure 3.1	GC/MS total ion chromatogram of <i>L. sinense</i> rhizome hexane extract	41

LIST OF ABBREVIATIONS

ASTDR	Agency for Toxic Substances and Disease Registry
AT	Ambient temperature
CDC	Centers for Disease Control and Prevention
CLT	Central Laboratory (Thailand) Co., Ltd.
CMU	Chiang Mai University
CS	Collecting sites
EI	Electron impact
FDA	Food and Drug Administration
GC	Gas chromatography
IPM	Integrated Pest Management
MS	Mass spectrometer
MVCAC	Mosquito and Vector Control Association of California
PS	Preliminary human-baited-trap surveys
TIC	Total ion chromatogram
WHO	World Health Organization

LIST OF SYMBOLS

°C	degree Celsius
%	percentage
≈	approximately
et al	other
ect	et cetera
hr	hour
cm	centimeter
cm ²	square centimeter
μl	microliter
g	gram
g/m ²	gram/square meter
g/ml	gram/milliliter
m	meter
mm	millimeter
mg/ml	milligram/milliliter
mg/l	milligram/liter
ml	milliliter
no	number
spp	species
v/w	volume/weight
v/v	volume/volume
w/v	weight/volume
w/w	weight/weight
