ACKNOWLEDGEMENT

I would like to express my deepest gratitude to my advisor, Asst. Prof. Dr. Chadarat Ampasavate, and co-advisor, Asst. Prof. Dr. Songyot Anuchapreeda for their helpful guidance, dedication, valuable knowledge, and providing me with an excellent contribution in everything for doing this research. With their all supports, I have been able to achieve the accomplishments presented in my thesis.

I am also like to gratefully thank Dr. Adisak Tantiworawit and Assoc. Prof. Dr. Pimlak Charoenkwan for the bone marrow specimen collection and their kind helpfulness.

In addition, I am thankful to Lect. Singkome Tima and Dr. Rungsinee Phongpradist for their kind assistance and supporting experimental training throughout my work. I am always grateful to collaborators in the Faculty of Pharmacy and Department of Medical Technology, Faculty of Associated Medical Sciences for their kindly advices, and helpful to make this study succeeded.

I would like to thank the Division of Clinical Microscopy and Division of Clinical Immunology, Department of Medical Technology, Faculty of Associated Medical Sciences, Chiang Mai University for providing instruments and a place for study.

Most of all, I would like to express my great gratitude to my parents and my friends for their love and encouragement throughout this study.

Finally, this work is partially financial supported by the Graduate School, Chiang Mai University.

Wasimon Jutapakdee
