ACKNOWLEDGEMENTS

This thesis was completed with great effort and contribution from various people and agencies. I would like to thank my advisor Assoc. Prof. Dr. Niramon Utama-Ang for every valuable supports, suggestions and advices throughout this thesis work also the helpful discussion the preparations both experiment, manuscript for publication and thesis writing.

Thanks are also expressed to my co-advisors and committee members, Dr. Prodpran Thakeow Angeli and Dr. Phikunthong Kopermsub who gave their valuable time to evaluate this thesis work and gave supports and suggestions. I would like to express my grateful to all the lecturers and students at Division of Product Development, Faculty of Agro-Industry, Chiang Mai University for their kind assistance.

This thesis could not have been possible without financial support from my families and NSTDA-University-Industry Research Collaboration (NUI-RC), Thailand under National Science and Technology Development Agencies (NSTDA), Thailand.

Finally, I am also forever grateful thank and indebted to all Sukeaw and Samakradhamrongthai family their continuous support and encouragement with many sacrifices.

Raj nibhas Sukeaw Samakradhamrongthai
