ACKNOWLEDGEMENT

First of all, I would like to express my gratitude to the Faculty of Architecture, Chiang Mai University as well as Royal University of Fine, Art for providing this precious and invaluable scholarship.

I would like to thank profoundly to my adviser Asst. Prof. Dr. Angunthip Srisuwan, and Asst. Prof. Dr. Yottana Khunatorn of the Faculty of Mechanical Engineering, Chiang Mai University, for the time and energy. They had put into mentoring me during the collection of data, research and for providing me with much needed support and encouragement throughout the writing process of my thesis. Very special thanks for his countless hours in guiding and helping me from the beginning of my thesis until the end.

I would like to also extend my heartfelt thanks to Asst. Prof. Piyaboon Nikaew of the Faculty of Architecture and his staffs, who kindly gave me permission to access computer laboratory.

Sincerely thanks to all professors, and all the staffs who work for the Faculty of Architecture and laboratory of Arjarn Yottana Khunatorn, Chiang Mai University for their kind support. Thanks to all my friends to be assistants of my work, Mr. Sakona Loeung, Mr. Lyheng Phuoy, Mr. Vat Sun, Mr. David Dy, and Mr. Virak Va.

Finally, I would like to express my deepest respect to my beloved parents and family for their support that sustained me throughout my study at Chiang Mai University and their encouragement.
