ACKNOWLEDGEMENT

I have to express my sincere gratitude to Assoc. Prof. Dr. Sansanee Auephanwiriyakul and Assoc. Prof. Dr. Nipon Theera-Umpon for their kindness and patience on guiding me to complete my thesis.

I am specially grateful to Prof. Threera Tongsong, a medical doctor at the Faculty of Medicine, Chiang Mai University for providing ultrasound videos of normal and abnormal fetuses, the ground truths of ultrasound images and give a very useful supervise during my work.

I have to thank Asst. Prof. Dr.Yuttana Mundee for his support, encouragement and correcting my thesis.

I wish to thank Assoc. Prof. Suchaya Luewan M.D. for providing useful data of expert opinion.

I sincerely thank to Miss Usanee Apijuntarangoon and Mr. Kasemsit Teeyapan for helping to correct my English writing, Mr. Ritipong Wongkhuenkaew, Mr. Kittichai Wantanajitikul, Miss Suwannee Phitakwinai and Mr. Anusorn Yodjaiphet for encouraging and comment on thesis writing.

I have to express thank to all members in Computational Intelligence Research Laboratory (CIRL), Faculty of Engineering, Chiang Mai University for supporting and encouragement.

I have to thank to all members of the Biomedical Engineering Center (BMEC) for their warm friendship during my study.

Finally I have to thank to my parents for funding support and thank to my wife and my lovely twin children who always cheer me up whenever I become disappointed.

Chisanai Sardsud
