# ACKNOWLEDGEMENT

The master degree period is undoubtly the most stresssful period in my life so far. Wtihout the aids of many people, I wouldn't have come this far. The first person I wish to mention and give my sincerest gratitude to is my supervisor Dr. Pradthana Jaipong who has been a kind teacher, a capable supervisor and a great motivation when I'm in hardest times. I am very fortunate to have worked under his guidance.

Apart from my supervisor, I would like to thank my dearest friends for helping out with a lot concerning the work and also for being a steady support whenever I need them.

Above all, I give my special thanks to my parents for always supporting me and for understanding. Their advices are most appreciated.
