(	Chapter I Introduction	1
	1.1 Historical Background	1
	1.2 Objectives	4
	1.3 Literature Review	4
(	Chapter II Materials and Methods	19
	2.1 Chemicals and Reagents	19
	2.2 Leukemia cell line cultures	19
	2.3 Plant material	19
	2.4 Preparation of the M. siamensis flowers crude and fractional extracts	19
	2.5 HPLC for screening of chemical compounds	20
	2.6 Growth curve analysis of leukemic cell lines	20
	2.7 MTT assay	20
	2.8 Effect of <i>M. siamensis</i> flowers crude extract and fractional extracts on	21
	Bcr/Abl, WT1, and FLT3 protein expressions in leukemic cell lines	
	2.9 Protein preparation	21
	2.10 Protein determination by SDS-PAGE and Western blot analysis	24

- 2.11 Anti-proliferative effect of crude EtOH extract and fractional extracts
   25 of Hex and EtOAc from *M. siamensis* flowers on Molt4, K562, and
   EoL-1 cell lines by MTT assay
- 2.12 Effect of crude EtOH extract and fractional extracts of Hex and
  26 EtOAc from *M. siamensis* flowers on Bcr/Abl protein expression in
  K562 cell line
- 2.13 Effect of crude EtOH extract and fractional extracts of Hex and
  26 EtOAc from *M. siamensis* flowers on WT1 protein expression in
  Molt4, K562, and EoL-1 cell lines
- 2.14 Effect of crude EtOH extract and fractional extracts of Hex and27 EtOAc from *M. siamensis* flowers on FLT3 protein expression inEoL-1 cell line
- 2.15 Effect of crude EtOH extract and fractional extracts of Hex and
  27 EtOAc from *M. siamensis* flowers on total cell number in Molt4,
  K562, and EoL-1 cell lines
- 2.16 Effect of time period of crude EtOH extract and fractional extracts
  27 of Hex and EtOAc from *M. siamensis* flowers on Bcr/Abl protein expression in K562 cell line
- 2.17 Effect of time period crude EtOH extract and fractional extracts of28 Hex and EtOAc from *M. siamensis* flowers on WT1 proteinexpression in Molt4, K562, and EoL-1 cell lines
- 2.18 Effect of time period of crude EtOH extract and fractional extracts of
  28 Hex and EtOAc from *M. siamensis* flowers on FLT3 protein
  expression in EoL-1 cell line
- 2.19 Effect of time period of crude EtOH extract and fractional extracts of
  29 Hex and EtOAc from *M. siamensis* flowers on total cell number in
  Molt4, K562, and EoL-1 cell lines
- 2.20 Effect of concentration of Hex fraction from *M. siamensis* flowers on29 Bcr/Abl protein expression in K562 cell line
- 2.21 Effect of concentration of Hex fraction from *M. siamensis* flowers onWT1 protein expression in Molt4, K562, and EoL-1 cell lines

2.22 Effect of concentration of Hex fraction from M. siamensis flowers on	30
FLT3 protein expression in EoL-1 cell line	
2.23 Effect of concentration of Hex fraction from M. siamensis flowers on	30
total cell number in Molt4, K562, and EoL-1 cell lines	
2.24 Effect of Hex fraction from <i>M. siamensis</i> flowers and mammea E/BB	31
on Bcr/Abl in K562 cell line	
2.25 Effect of Hex fraction from <i>M. siamensis</i> flowers and mammea E/BB	31
on WT1 in Molt4 cell line	
2.26 Effect of Hex fraction from M. siamensis flowers and mammea E/BB	31
on FLT3 in EoL-1 cell line	
2.27 Effect of Hex fraction from M. siamensis flowers and mammea E/BB	32
on total cell number in Molt4, K562, and EoL-1 cell lines	
2.28 Statistical analysis	32
Chapter III Results	33
3.1 Yield of crude and fractional M. siamensis flower extracts	33
3.2 High performance liquid chromatography (HPLC) analysis	34
3.3 Growth curve of leukemic cell lines	37
3.4 Cytotoxicity of crude EtOH and fractional extracts of Hex, EtOAc,	39
and MeOH from <i>M. siamensis</i> flowers on Molt4, K562, and EoL-1 cell lines	
3.5 Effect of crude EtOH extract and fractional extracts from M. siamensis	43
flowers on Bcr/Abl, WT1, and FLT3 in Molt4, K562, and EoL-1 cells	
3.6 Effect of crude EtOH extract and fractional extracts of Hex and EtOAc	
from <i>M. siamensis</i> flowers on total cell number in Molt4, K562, and EoL-1 cell lines	54
3.7 Effect of time period of crude EtOH extract and fractional extracts of	
Hex and EtOAc from M. siamensis flowers in Molt4, K562, and	60
EoL-1 cell lines	
3.8 Effect of time period of crude EtOH extract and fractional extracts of	
Hex and EtOAc from M. siamensis flowers on total cell number in	91
Molt4, K562, and EoL-1 cell lines	

3.9 Effect of concentration of Hex fraction from <i>M. siamensis</i> flowers on	
target protein expression in Molt4, K562, and EoL-1 cell lines	110
3.10 Effect of concentration of Hex fraction from M. siamensis flowers on	
total cell number in Molt4, K562, and EoL-1 cell lines	121
3.11 Effect of Hex fraction from <i>M. siamensis</i> flowers and mammea E/BB	
on Bcr/Abl, WT1, and FLT3 in Molt4, K562, and EoL-1 cell lines	127
3.12 Effect of Hex fraction from <i>M. siamensis</i> flowers and mammea E/BB	
on total cell number in Molt4, K562, and EoL-1 cell lines	129
Chapter IV Discussion	141
Chapter V Conclusion	145
