## ACKNOWLEDGEMENT

Alhamdulillah, all praises to Allah for providing me this opportunity, strength, courage and excellent health to complete this thesis. I would like to express my gratitude to the International Islamic University Malaysia and the Ministry of Higher Education Malaysia in providing scholarship and granting me an opportunity to complete this study.

Special appreciation goes to my major advisor Assistant Professor Dr. Khanokporn Sucamvang and my co-advisor, Lecturer Dr. Chanchai Yothayai for their continuous encouragement, support and guidance over the completion of this study.

My sincere appreciation goes to the members of my thesis examining committee for their advices and guidance. I would also like to thank chairperson of this program, Assistant Professor Dr. Usanee Jintrawet, all my teachers, office staffs and my classmates in Faculty of Nursing, Chiang Mai University for their continuous support and help.

I would like to extend my thankful gratitude to the Head of Urology Department and their staffs in Hospital Tengku Ampuan Afzan, Hospital Selayang and Hospital Kuala Lumpur during data collection process as well as all the subjects participated in this study. This study would not have been possible without their cooperation and support.

Most of all, my deepest gratitude goes to my beloved husband, Muhammad Fairuz bin Abu Bakar, my parents, my parents in law and my family for their constant support, prayers and encouragement. I also would like to thank to those who indirectly contributed in this study. Thank you very much.

Suhana Muhamad
