ACKNOWLEDGEMENT

Many individuals contributed the accomplishment of my dissertation. I would like to express my deep gratitude and sincere appreciation to the panel of advisory committee Dr. Hunsa Sethabouppha my major advisor, Associate Professor Dr. Chawapompan Chanprasit, and Associate Professor Dr. Duangruedee Lasuka my co-advisor since being enrolled in this doctoral program. They always guidance, valuable constructive feedback, encouragement my work dissertation and assistance throughout the study. Sincere gratitude is also extended to my examining committee Professor Dr. Warunee Fongkaew, Assistant Professor Dr. Pikul Phornphibul, Faculty of Nursing, Chiang Mai University, Thailand, and Mr. Paritat Silpakit, Saun Prung Psychiatric Hospital who generously contributed time and valuable constructive feedback for this research study.

My special appreciation goes to all participants at Meatha Wittayakom School, Baan Sala Meatha School and my gratefully thank to all people whose kind cooperation and valuable contributions to develop the participatory depression prevention model for Thai adolescents. As well as I gratefully acknowledge toward Nursing Council of Thailand for granting the funding support for this research study.

Finally, I would like to dedicate this work to my father and mother who raised me with for their unconditional love. Also my teachers, who encourage and taught me to believe in the value of education, inspired me to reach ultimate goal.
