**ESTIMATION OF INHIBITORY EFFECT AGAINST TYROSINASE
ACTIVITY BY HOMOLOGY MODELING
AND MOLECULAR DOCKING**

DAUNGKAMON NOKINSEE

THIS THESIS HAS BEEN APPROVED TO BE A PARTIAL FULFILLMENT OF
THE REQUIREMENTS FOR THE DEGREE OF
MASTER OF SCIENCE
IN BIOINFORMATICS

Examination Committee:

..... *Janchai Yana* Chairman
(Dr. Janchai Yana)

..... *Pt. Ngr* Member
(Asst. Prof. Dr. Piyarat Nimmanpipug)

..... *Lalida Shank* Member
(Asst. Prof. Dr. Lalida Shank)

Advisory Committee:

..... *Pt. Ngr* Advisor
(Asst. Prof. Dr. Piyarat Nimmanpipug)

..... *Lalida Shank* Co-advisor
(Asst. Prof. Dr. Lalida Shank)

ACKNOWLEDGEMENTS

I would like to acknowledge my thesis advisor, Asst. Prof. Dr. Piyarat Nimmanpipug for her supports, advices, suggestions and encouraging. I wish to express my sincere thank to Asst. Prof. Dr. Lalida Shank and Assoc. Prof. Dr. Vannajan Sanghiran Lee as well for insightful suggestion.

The generous support for computing time Computer Simulation and Molecular Modeling Laboratory (CSML), Department of Chemistry, Faculty of Science, Chiang Mai University is gratefully acknowledged for research support. I also thanks members of CSML for helps, sharing knowledge, kindness, assistance and friendship. I truly thank my parents for giving me the opportunity to study. Without their love, care and financial support everything happened during my study would not come true. Many words of thanks are not enough to express my deepest gratitude to them.

Finally, I would like to thank Center of Excellence for Innovation in Chemistry, (PERCH-CIC) and grant from Chiang Mai University for the financial supports.
