ACKNOWLEDGEMENT

I would like to express my deepest and sincere thankfulness to my advisor, Asst. Prof. Dr. Thunwadee Ritthiwigrom, for her valuable instruction, expert guidance, excellent suggestion and support throughout my year of research which are more than I can describe here. Everything will always be in my mind.

I am grateful to Assoc. Prof. Dr. Surat Laphookhieo, Asst. Prof. Dr. Sarot Cheenpracha and Asst. Prof. Dr. Kongkiat Trisuwan for his kind help and useful comment during the write up of the publications. Special thanks are address to Professor Dr. Stephen G. Pyne, Department of Chemistry, University of Wollongong for recording HRMS data and his suggestions. I also thank for member of Natural Product Research Laboratory, Mae Fah Luang University for antibacterial testing and recording the optical rotation data.

I am very grateful Dr. Sumalee Kamchonwongpaisan and BIOTEC for the antimalarial, cytotoxic and anti-TB testing. I would like to acknowledge my sincere thanks to any person whose name is not mention here but who has supported me directly or indirectly in completion of this thesis.

I wish to express my sincere gratitude to member of our laboratory group for many suggestions, good opportunities in work and other helps.

My appreciation is also expressed to the Science Achievement Scholarship of Thailand (SAST), Graduate School, Chiang Mai University and Department of Chemistry, Faculty of Science, Chiang Mai University for all of my financial support.

Finally, the special thanks are address to my family for their unceasing love, take care, encouragement and support my education.

Chiramet Auranwiwat
