ACKNOWLEDGEMENTS

I would first like to thank my thesis supervisor and co-supervisor. Foremost, I would like to apparent my sincere thankfulness to my supervisor, Assist. Prof. Dr. Komsan Suriya, always advice whenever I had a trouble or a question about my research or writing. And he supported me to study towards a master's degree at Chiang Mai University.

I would also like to thank the chairperson of advisory committee, Lect. Dr. Kantaporn Chuangchid committee, Assist. Prof. Dr. Komsan Suriya and, and Lect. Dr. Napat Harnpornchai committee member for providing all the patronizing resources, advice, and direction. Without their passionate cooperation and input, the supplementing survey could not have been achieved conducted.

I would like to express my sincere thanks towards respondents who sacrifice their time to this survey in the implementation of this thesis. I would also like to acknowledge Mr. Jason Petrea for investigate English of this thesis, and I am appreciatively indebted to his for his very valuable comments on this thesis.

My sincere thanks also all lecturers of the Economics Faculty at Chiang Mai University, as well as essentially teaching me everything I know about Economics. I thank the employees, officials, and librarian staff of the Economics Faculty at Chiang Mai University, as advises and coordination as well as in various fields.

Finally, I must express my very deep appreciation to my parents and friends for successively providing me with support and continuous incentive throughout the process of researching and writing this thesis. This achievement would not have been possible without them. Thank you.
