ACKNOWLEDGEMENT

Firstly, I would like to thank my advisor Prof.Dr. Songsak Sriboonchitta for my Ph.D research and dissertation comments. His advice was crucial for the success of my research. When I was in trouble, he has always tried to help me a lot. I am very grateful for his guidance and encouragement, without which, this dissertation would not have been written. I shall express thanks to my co-advisors, Dr. Jirakom Siririsakulchai and Dr. Jianxu Liu, for their comments and support throughout my studies.

I would like to thank my teacher, Prof. Dr. Hung T. Nguyen, who has given me many suggestions and comments. Also, Prof. Dr.Sompong Dhampongsa, the member of dissertation committee who has guided me how to improve on my research. I am grateful to Prof.Dr.Thierry Denoeux for his comments about belief function in the first paper.

I am also grateful to many of my friends who assisted and supported my research and writing efforts over the years.

Last but not least important, many thanks to my family, always offering support and love. I could not have finished my dissertation without their support.
