## ACKNOWLEDGEMENT

The author would like to extremely grateful to my advisor Assoc. Prof. Dr. Chayanon Hansapinyo for his valuable advice in my Ph.D study and related research, the great opportunities and supported me in many ways. Besides my advisor, I would like to thank the rest of my thesis committee for their insightful comments and encouragement. The author also would like to thank to Mr. Sittithum Urod, for their helpful on the GIS application.

The author would like to acknowledge the Thailand Office of the Higher Education Commission under the National Research University Project and the Graduate School of Chiang Mai University for providing financial support. Also, the author would like to acknowledge the Department of Civil Engineering, Chiang Mai University and thankful to all my friends in Construction Technology and Sustainable Engineering Research Unit – CONTECH, for their supports.

Finally, the author would like to pay highly respect to my father and mother, Mr. Saksit Saicheur and Mrs. Vijit Saicheur for everything in my life.
