ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Assoc. Prof. Dr. Sansanee Auephanwiriyaikul and Assoc. Prof. Dr. Nipon Theera-Umpon for inspiration and guidance. The knowledge and research methodologies from all experiments that I have learned will certainly be applied for future benefits of the public.

I would like to say thank you to Pol.Lt.Col Apichart Hattasin from The Children and Women Protection Unit, Crime Investigation Division of Police Region 5, Royal Thai Police in coordinate with the Destiny Rescue Foundation for valuing and foreseeing the upcoming of computing technology to serve the public.

I would like to take this opportunity to express our deepest gratitude and appreciation to the thesis committee for the knowledge given. Thank you very much indeed.

I would like to thank all members in Computational Intelligent Research Laboratory for research assistance, and even sharing experiences with me.

I also would like to thank the credit is hereby given to the Massachusetts Institute of Technology and to the Center for Biological and Computational Learning for providing the database of facial images for MIT CBCL database.

Finally, I would like to express my sincere gratitude to my family for successes of Ph.D. achievement.
