ACKNOWLEDGEMENT

Very special thanks to my advisor Dr. Christopher K. Morley and my co-advisor Dr. Jaydeep Ghosh for their excellent supervision from the beginning to the end of my MSc. Study. Thank you very much for helping and correcting during this project. I would also like to thank Dr. Robert Kieckhefer for his comments and suggestions during research and Mr. Anupong Hutawarakorn for helping me during data loading and software installation process. I would like to thank New Zealand Petroleum and Minerals for supplying all seismic data and Schlumberger for providing Petrel software used in this study.

Lastly, many thanks go to my student colleagues for the cheerful working atmosphere throughout the months, and, most of all, to my family for their infinite support.
