ACKNOWLEDGEMENT

The completion of this dissertation fulfilling with love, effort, friendship and supporting that many people shared with me. I am grateful to them all for providing me with kindness support and assistance. My heartfelt thanks to all lovely participants who willingly participated and shared their valuable and useful experiences for me to provide the better nursing care for preventing depression with other people.

I am deeply indebted to Professor Dr. Darawan Thapinta, my major advisor, for her wealth of knowledge, expertise and valuable guidance not only my doctoral study but her always warm support alongside me. I am sincerely grateful to my co-advisor, Associate Professor Dr. Wanchai Lertwattananawilat for his expertise, scholarly guidance, encouragement and support throughout my study. I especially wish to thank Associate Professor Dr. Ratchneewan Ross, my co-advisor and my mentor at College of Nursing, Kent State University, USA, for her expertise, scholarly guidance, encouragement, kind support and guidance during my study abroad and the work of this dissertation. I also would like to sincerely thank Assistant Professor Dr. Petsunee Thungjaroenkul and Associate Professor Dr. Ajcharaporn Seeherunwong for their intellectual advice and meaningful suggestion and recommendations.

I deeply appreciate Professor Dr. Warunee Fongkaew, the chairperson of Doctoral program, for her valuable supports and encouragement throughout my doctoral study.

I am especially thankful to the president of Naresuan University, Dean and my colleagues of faculty of nursing, Naresuan University for scholarship, supporting, and encouragement. My gratitude extends to the director of Phitsanulok Provincial Health Office and nursing staff in six Tambon Health Promoting Hospitals of Naresuan University Hospital for their understanding and support during collecting the data.

My special appreciation Professor Dr. Manoch Lortrakul that allows me used his instrument and useful suggestion for my study. I special appreciation to my experts in Cognitive Behavior Therapy, Associate Professor Dr. Nuttorn Pityaratstian, Dr. Daranee Phukao, and Supin Pornpipatkul for their valuable suggestion and recommendations during testing content validity of my instrument.

I wish to extend my acknowledgement to all my friends in the doctoral study for their wonderful friendship and caring. Their support and affirmation contributed greatly for me to successful

Finally, I am profoundly grateful to my family and true friends for their continuous support and their unconditional love lifted me up throughout my doctoral study. Thank you very much for all their love and understanding and I wish them could be proud of my achievement.
