

**IDENTIFICATION OF CARBONATE RESERVOIR
FLUID TYPE USING EXTENDED ELASTIC
IMPEDANCE INVERSION
IN BLOCK A, OMAN**

The seal of Chiang Mai University is a circular emblem. It features a central figure of an elephant standing and facing left. Above the elephant's head is a five-pointed star with a flame-like center. The entire emblem is encircled by a border containing the university's name in Thai script at the top and 'CHIANG MAI UNIVERSITY 1964' in English at the bottom.

ACKNOWLEDGEMENT

I am deeply indebted to PTT Exploration and Production (PTTEP) Company Limited and their managements for offering me the good opportunity to pursue my Master's degree and for giving me the financial support throughout the scholarships. Moreover, I would like to express my sincere thanks to PTTEP Oman project for providing all necessary data and support for this study.

I would like to express my deepest appreciation to all those who provided me the possibility to complete this report. A special gratitude I give to our advisory committee, Dr. Pisanu Wongpornchai and Dr. Diako Hariri Naghadeh, whose contribution in stimulating suggestions and encouragement, helped me to coordinate my independent study especially in writing this report.

Furthermore I would also like to acknowledge with much appreciation the crucial role of the staff of PTTEP Oman project and GTS team, who gave the permission to use all required equipment and the necessary material to complete this study.

Last but not least, many thanks go to Dr. Christopher K. Morley, and his petroleum geophysics teams at Chiang Mai University including Dr. Diako Hariri Naghadeh, Dr. Jaydeep Ghosh, Ms. Chanpen Silawongsawat, Dr. Niti Mankhemthong and academic officers (Ms. Pannipa Kuntaros, Mr. Anupong Hutawarakorn, and Ms. Siraporn Vipanthusart) for running this program and providing all the required facilities to undertake the study. Thanks Robert Kieckhefer for editing my report.

I would like to express my gratitude to all the members of my family for moral and spirit support during the period of my studies. I have to appreciate all my classmates, who have been friendly and warmly all the time.

Sunantha Phaungphuak
