## ACKNOWLEDGEMENT

I am eternally grateful to the Science Achievement Scholarship of Thailand (SAST) for financial support of my study and opportunity to pursue my Master's degree.

I appreciate with sincere thanks to my supervisor and co-advisor, Asst. Prof. Dr. Siriporn Chaisri and Dr. Niti Mankhemthong for guidance and encouragement during the period of this study. I am very grateful to all professors whose class I took including Assoc. Prof. Dr. Pisanu Wongpornchai and Asst. Prof. Suwimom Udphuay.

This work could not be completed without help from the staffs of Geophysics Research Laboratory at Department of Geological Sciences, Faculty of Science, Chiang Mai University, for their supporting in field work and data discussion. I extend my gratitude to all my classmates, all my friends and all the members of the Department of Geological Science for encouragement while undertaking this study. Finally, I really appreciate all the members of my family for moral support during the period of my studies, I love you all.

Srivipa Lerkrattanawaree
