## ACKNOWLEDGEMENTS

The author wishes to express my sincerest gratitude and profound appreciation to the following individuals and institutions that supported and inspired my work on this thesis:

To the president of Chiang Mai University, Prof. Dr. Niwes Nantachit, for granting scholarship to pursue my master degree at CMU.

To Asst. Prof. Dr Kesinee Gatphayak, my advisor, for her invaluable guidance, heartfelt concern, comments, suggestions and encouragement throughout the study period and for sharing her precious time going over this work.

To Prof. em. Dr. Hans-Jürgen Langholz, for his great advice, motivation, constant support, continuous encouragements, constructive comments, and suggestions.

To Lect. Dr. Mintra Seel-audom and Asst. Prof. Dr. Wanaporn Tapingkae, my co-advisors, for their valuable advice, constructive comments, and suggestions for the improvement of the manuscript. Also special thanks to the thesis examination chairman Dr. Wisanuporn Ratanatrivong for his valuable recommendation, additional information and sharing experience.

To all Animal and Aquatic staff, administration officials, technical lab scientists and also master and PhD students, who always were very helpful in conducting my experiments.

To FAF (Faculty of Agriculture and Forest Resource) Souphanouvong University, for approving my continuous leave for realizing my master study.

To my dear parents, family, brothers, cousins, friends, classmates for being sources of inspiration, to whom this piece of work is dedicated.

Khambou Tayyamath
