ACKNOWLEDGEMENTS

This thesis would not be achieved without support from many ways and many people. First, I would like to express my deep gratitude to Asst. Prof. Dr. Sakhorn Rimjaem for her patient guidance and valuable assistance, who have made everything possible and complete. I would like to thank Asst. Prof. Dr. Chitrlada Thongbai and Dr. Jatuporn Saisut for many suggestions throughout my study. I also wish to thank Prof. Dr. Helmut Wiedemann and Asst. Prof. Dr. Udomrat Tippawan for their advice and comment on this research thesis. My grateful thanks are extended to the technicians and all colleagues of the PBP-CMU Linac Laboratory for their special support.

Finally, I would like to thank my mother and my family, who always send me the moral support and are the important encouragement of my life.

Natthawut Chaisueb
