ACKNOWLEDGEMENT

Firstly, I would like to express my sincere gratitude to my advisor Asst. Prof. Dr. Decha Thapanya for the continuous support of my Ph.D study and related research, giving me opportunity to prove myself, suggestion in academic, motivation, helps in field trip and kindly support in everything, even in my life. His guidance helped me in all the time in research and writing of this thesis.

I would like to acknowledge to my examining committee members, Assoc. Prof. Dr. Porntip Chantaramongkol (who inspired me to aquatic insect study), Assoc. Prof. Dr. Chalobol Wongsawad, Asst. Prof. Dr. Prachuab Chaibu, Asst. Prof. Dr. Chitchol Phalaraksh as the second reader of thesis and I am gratefully indebted to them for their very valuable comments on this thesis.

My sincere thanks were following to the Department of Royal Irrigation, Department of National Parks, Wildlife and Plant Conservation and Electricity Generating Authority of Thailand for permission to study. I would like to thank to Aquatic Insect Research Unit, Department of Biology, Faculty of Science, Chiang Mai University for provided facilities for the research.

I would like thank my fellow lab mates for the helps in field trips and stimulating discussions from Natthaphorn Sunthornwet, Phuchiwan Suriyawong, Nichanan Thongdej and all members whose names not appears.

Most importantly, none of this could have happened without my family, I am deeply indebted them. My parents, whom had been supported me over my life and my education. Finally, thank to my wife and my little daughter for pushing and encourage me all the time.
