Abstract in Thai	d
Abstract in English	f
List of Table	i
List of Figures	j
Chapter 1 Introduction	k
1.1 Statement of the Problem and the Significant of the Study	1
1.2 Objective of the study	5
1.3 Contributions of the study	5
Chapter 2 Theoretical and Literature Review	6
2.1 Theoretical	6
2.1.1 Economic impact of rail system on transportation	6
2.1.2 Stochastic exponential growth model	10
2.1.3 Bayesian inference	12
2.1.4 Markov Chain Monte Carlo (MCMC) method	13
2.2 Literature Review	14
Chapter 3 Research Methodology	19
3.1 Conceptual Framework	19

3.2 Data Collection	19
3.3 Model Specification	20
Chapter 4 Empirical results	23
4.1 Historical Data	23
4.2 Parameters Estimation Using MCMC	26
4.3 Forecasting the Ridership	29
Chapter 5 Conclusion	31
5.1 Conclusion and discussion	31
5.2 Policy implication and suggestions for future research	32
5.2.1 Policy implication	32
5.2.2 Suggestions for future research	32
References	33
Curriculum Vitae	37

LIST OF TABLES
