ACKNOWLEDGEMENTS

Regarding my journey in the doctoral program, there are many persons who kindly assisted, encouraged, and supported me throughout the learning process.

Firstly, my study would not have been possible without the advisory committee. My deep gratitude goes to my dissertation major advisor, Associate Professor Dr. Linchong Pothiban, for very kind support, encouragement, intellectual comments and constructive feedback during this dissertation. I am also grateful to my co-advisor, Assistant Professor Dr. Usanee Jintrawet, Assistant Professor Dr. Jutarat Mesukko, and Lecturer Sanit Reungrongrat, M.D., for their suggestions, recommendations, and encouragements. My special appreciation is extended to my examination committee, Associate Professor Dr. Kasara Sripichyakan, Associate Professor Dr. Patraporn Tungpunkom, and Associate Professor Dr. Renu Pookboonmee, for their valuable suggestions and recommendations.

My gratitude is extended to Venerable Dr. Phrakrusiripariyattayanusat, Venerable Dr. Phrakrupipitsutatorn, Phra Phumet Sumedho (Punsuwun), Dr. Songserm Saengthong, Assistant Professor Dr. Sombat Skulphan, and Dr. Saengduean Promkaewngam, my panel of experts for clarification and suggestions regarding the research instruments. I would like to thank Assistant Professor Dr. Seepan Kantawang and Associate Professor Dr. Sujitra Tiansawad, who offered valuable suggestions for back translation of the research instrument. Next, I would like to thank Mr. Jakkapob Dhatsuwan for suggestions in statistics.

I would like to thank all participants for their cooperation in the study. My deepest gratitude goes to my research assistants and health care providers at Ramathibodi Hospital, Queen Sirikit National Institute of Child Health, Bhumibol Adulyadej Hospital, Maharaj Nakorn Chiang Mai Hospital, and Suppasitiprasong Hospital for their cooperation in data collection.

My sincere thanks go to Ramathibodi School of Nursing, Faculty of Medicine, Ramathibodi Hospital, Mahidol University for partial financial support for my PhD study and offering me the valuable opportunity to pursue a doctoral program.

Finally, most importantly, this dissertation is dedicated to my family; they have been involved since the beginning and their support is invaluable. Moreover, I am also thankful to anyone whom I may not have named here for their assistance.
