ACKNOWLEDGEMENT

My innermost appreciation goes primarily and foremost to Dr. Manissaward Jintapitak , my supervisor, for her continuous stimulation and guidance. She has helped me working through all the steps of my research and writing of this paper. Without my supervisor's consistent and illuminating direction, this thesis may not have achieved its present form.

Second, I would like to express my heartfelt gratitude to Dr. Atichart Harncharnchai who led me into the first step of my research. I am further greatly indebted to the professors and teachers at the Department of Knowledge Management: Dr. Teeraporn Saehaew, Dr. Acrapol Nimmolrat and Dr. Chalermpon Kongjit, who have instructed and helped me a lot in the past two years.

Last my thanks would go to my beloved family for their loving considerations and supporting me unconditionally all through these years. I also owe my sincere gratitude to my friends and my fellow classmates who gave me their help and time in listening to me and helping me to work out my problems during the difficult course of the thesis.
