ACKNOWLEDGEMENT

I would first like to thank my thesis advisor Asst. Prof. Dr. Warangkana Arpornchayanon for continuous support of my master study, for her patience, kindness, encouragement, and salutary suggestion. Her guidance helped me in all the time of this research and writing of this thesis and related work. Additionally, for her supportive influenced me to harvest the valuable and highest experience.

Besides my advisor, I would like to thank my co-advisors: Asst. Prof. Dr. Nutthiya Hanprasertpong, Assoc. Prof. Dr. Saisawat Chaiyasate, and Asst. Prof. Dr. Sunee Chansakaow, for their insightful comments, valuable suggestion, and encouragement which incented me to expand this thesis from various visions.

My sincere thanks to all of staff members in the Department of Pharmacology, Faculty of Medicine, Chiang Mai University for their intensive teaching, immense knowledge and mercifulness.

I gratefully appreciate all of technical and supportable staffs of the Department of Pharmacology, Faculty of Medicine, Chiang Mai University for information, assistance, and lovely support.

I would like to acknowledge Faculty of Medicine, Chiang Mai University for funding support and thank all of patients who enrolled in this research.

Finally, I wish to thank my parents and my brother for their constant support, understanding, and cheerful. I would like to many thank for my friends especially, Miss Suthunya Chupradith (P'Kaewklao) and Miss Rujira Limpaisarn (Lhan) for their friendship, every helpfulness, and strongly encouragement.

Soraya Klinprung
